Traité de Lutherie

THE VIOLIN AND THE ART OF MEASUREMENT

BY FRANÇOIS DENIS

François Denis reveals the story of a system of proportions which diseapeared in the 18 th Century, overtaken by the evolution of the science. He sheds new light on the thouth processes of the olds masters and reveals the simple but forgotten principles that underlie the conception and tracing of the legendary instruments.

An essential work to grasp the lost art of the violinmakers .

This work of about 255 pages of 24 x 31 cm, on gloss paper, clothbound .

(**In English version only. A pdf french version is available in option**)
